ROADCOAT **CENTRO** FLOORING

PERFORMANCE TECHNICAL DATA

CENTRO Flooring is a very high-spec solvent free epoxy resin system, with a track record over 30 year - over 6,000,000 m² installed worldwide.

Its adjustable/optional properties enable the system to fulfil most industrial, engineering and architectural requirements.

Standard thickness: 1.5 to 5.0 mm

Suitable Substrata: concrete, screeds, ceramic tiles, aluminium, reinforced polyester, steel.

System Properties

- Decorative
- Any colour possible
- Easy to clean
- Substrata protection
- Exceptional wear resistance
- No ageing deterioration
- Easy to repair if damaged

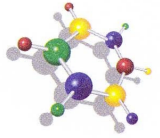

Adjustable/Optional Properties

- Super scuff/ dirt resistant
- Matt or high gloss
- Clean room finish
- Decorative flake finish
- Structured finish
- Extra Anti slip
- Electrically conductive

PERFORMANCE TECHNICAL DATA

Standard Colours

Light grey Middle grey Dark grey
Leaf green Beige Oxide red

Physical Properties

Density (SG) 1.6	1.6kg/mm/m ²
Density (SG) Filled 1.8	1.8kg/mm/m ²
Hardness	80 Shore D
Compressive Strength	60N/mm ²
Tensile Bonding Strength	35N/mm ²
Adhesion to concrete, screeds, asphalt	Substrate failure
Adhesion to steel	12N/mm ²
Adhesion after Freeze/Thaw 50 cycles	Substrate failure

PRODUCTION

Chemical Resistance

To detergents, soaps, fuels, oils, fats, salts and de-icing agents as well as a wide range of chemicals in varying concentrations tested as customers' needs are recognised. Chemical resistance information to be supplied by the user.

Suitability

With 40 years experience R&D, manufacturing and installation of over 15,000,000 m² of various Roadcoat floors, coatings, waterproofing and parking decks worldwide, we will most likely be able to provide a solution which will fulfil your requirements.

Quality Control

All Roadcoat materials are developed and manufactured under EN ISO 9001 Certificate No. ZQ 001/1064, valid since 1994.
